

ANOTHER WONDERFUL DISCOVERY.

Electricity, telephones, airships and all the wonderful inventions of this scientific age seemed impossible a few years ago. But it seems there is nothing so impossible but what some scientist will discover the means of accomplishment. Prof. Emerson has now discovered a preparation which will really grow hair. Iowa people are amazed and astounded by Emerson's new discovery for the hair. Emerson said that one bottle of his new discovery would grow a full head of hair and restore gray or faded hair to its natural color. The people did not believe him. It was too much to expect and too good to be true. They had tried all the highly advertised hair restorers and had always been disappointed and they could not believe one bottle would really grow a full head of hair. But now comes the most startling part of all—for Emerson proved it—yes, absolutely proved it. What do you think he did? He made the bold and remarkable statement that he would give five dollars to any person who used one bottle of his new discovery and failed to secure a new and satisfactory growth of hair. The people were astounded by the unheard of offer, but they knew that he was financially responsible and would do as he agreed if it cost him his fortune. Thousands bought bottles of his new discovery.

covery, though most of them had little faith and expected to be paid five dollars for using the bottle of new discovery. But of the first thousand bottles sold only seven claimed they were not entirely satisfied, and they immediately received the five dollars without question. The rest of them were overjoyed to find that Emerson's New Discovery had really promoted a new and healthy growth of hair. What is this remarkable new discovery? Emerson won't tell, and chemists have tried to analyze it and have failed to find out what it is. Emerson asks us to publish this same offer to the readers of this paper. He states that with every bottle of his new discovery, the price of which is \$1, he will send a written agreement to pay you five dollars if you are not entirely satisfied with the result which is invariably a new head of healthy, vigorous hair. The new discovery is not sticky, oily or greasy and is very pleasant to use. This is the most remarkable offer ever made by a responsible firm, such as The Emerson Chemical Co. which is backing Emerson in his offer. Just send \$1 bill (money order not necessary) to the Emerson Chemical Co., Scottsbluff, Neb., and secure a bottle of the New Discovery and the agreement to pay you \$5 or grow a full head of hair with only one bottle of this new discovery. July 8-4t.

Gupton Asks Fair Play.

Under the Hadley regime one hundred thousand dollars is spent annually in propagating English and Mongolian pheasants and Hungarian quail, while the tuberculosis sanitarium at Mt. Vernon is sorely hampered for funds to carry on a noble work. The state game farm at Jefferson City is of no utility whatever, but there is immense advertising possibilities in it for the Hadley administration. There is no immediate advertising possibilities in the sanitarium. By way of comparison it can be stated that the salary list of the game and fish department is something like \$7,000.00 per month, and the salary list of the sanitarium is about \$700.00 per month.—Standard.

In reply to the above editorial published in last week's issue of the Standard, Mr. W. L. Gupton requests us to print the following open letter.

Montgomery City, Aug. 19.
Editor Standard:—

On the first page of your issue of this date you have an item of which the following is a quotation: "Under the Hadley regime one hundred thousand dollars is spent annually in propagating English and Mongolian pheasants and Hungarian quail while the state sanitarium for tuberculosis at Mt. Vernon is sorely hampered for funds to carry on a noble work."

This language is a rank injustice to Governor Hadley. He does not pass the appropriation bills, as you well know. He has the right to recommend and the power to approve or veto. He approved every item of the appropriation made for the support of the sanitarium by the last general assembly. There was one building appropriation which on account of apparent lack of funds in the state treasurer was held up by the Governor with the full approval and consent of the board of managers. But this appropriation has been released and the plans are now being drawn and the contract will be let for the erection of this building about September 15, 1910. The only item in which our management is short is in its maintenance appropriation, and this shortage was caused by the legislature failing to provide for a seven thousand dollar deficit coming over from the Folk administration, and which has been provided for out of the appropriation made by the last general assembly. This shortage for which Governor Hadley was not responsible has been provided for out of appropriations chargeable to his administration.

I am a democrat but not the kind that think all the good is in my party and all the bad in the other. Play fair brother, or get out of the game.

W. L. GUPTON.

Life On the Panama Canal

has had one frightful drawback—malaria trouble—that has brought suffering and death to thousands. The germs cause chills, fever, and aague, biliousness, jaundice, lassitude, weakness and general debility. But Electric Bitters never fail to destroy them and cure malaria troubles. "Three bottles completely cured me of a very severe attack of malaria," writes Wm. A. Fretwell of Lucama, N. C. "and I've had good health ever since." Cure stomach, Liver and Kidney Troubles, and prevent Typhoid. 50c. Guaranteed by Crump & Kidwell.

Warren County's Old Settlers'

Last Saturday the 24th Annual Reunion of the Old Settlers of Warren County was held at Warrenton. Hon. G. Pitman Smith of this city was the orator of the day. A splendid crowd gathered in the shade of the grove to enjoy the music and listen to the speakers. The committee of arrangements under the direction of the president of the association, Mr. Emil Rohrig, Jr., had the occasion well in hand and made it pleasant for all, who attended the reunion.

Struck A Rich Mine.

S. W. Bends, of Coal City, Ala. says he struck a perfect mine of health in Dr. King's New Life Pills for they cured him of Liver and Kidney Trouble after 12 years of suffering. They are the best pills on earth for Constipation, Malaria Headache, Dyspepsia, Debility. 25c at Crump & Kidwell's.

Mr. and Mrs. John Vogt, of St. Louis is the guest of Mrs. W. W. Worley this week.

Miss Della Oliver is visiting at Montgomery this week.

Miss Rose Graby, of Franklin, Mo., is the guest of Miss Corwine Graves.

Woman's Beauty

Some women retain their beauty to an advanced age. But women, who regularly endure pain, age rapidly, for suffering leaves its lasting marks on them.

Nearly all women suffer more or less with some form of female trouble. It should not be neglected. Avoid the pain—treat yourself at home by taking Cardui, as thousands of other women have done. Begin at once and give Cardui a fair trial.

TAKE CARDUI

It Will Help You

Mrs. Katie Burlison, Goreville, Ill., tried Cardui and writes: "I suffered with female troubles, and was so sick I could not stand on my feet. Finally I began to take Cardui, and soon began to mend. Now I am able to do all my housework and am in much better health than I was before." Try it.
